CLIMAX

By Jake Johnson

I had 38 orgasms
between July 2nd and
August 24th.

I wrote about every
one of them.

Dedicated to Vieve, the girl I love.

Preface

(Or pre-cum, if you will)

As a writer, and an artist of all sorts, I am generally against the idea of censorship. That being said, I have realized for some time now the extent to which I censor myself, as I think most of us do. I leave out details, and even entire stories that are very central to my life, all under thoughts of "What if so-and-so were to find this?" I won't even completely open up within the confines of my own journal.

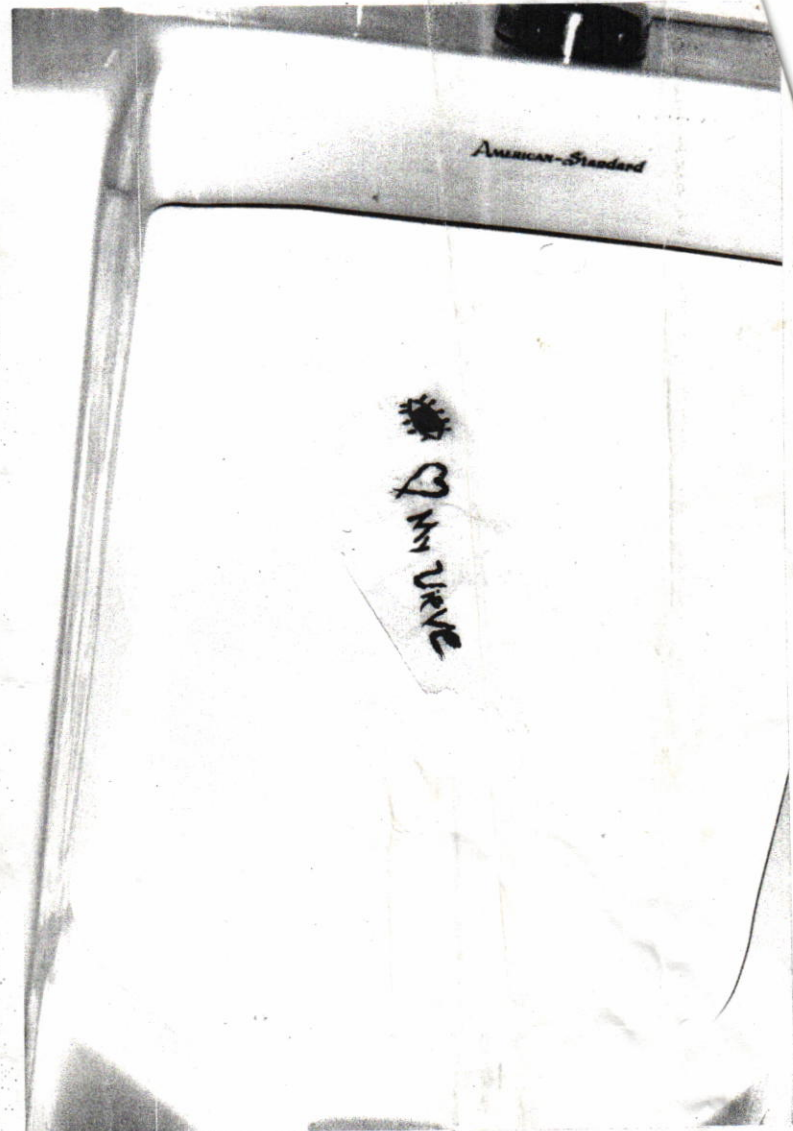

Well, this little project was, in part, an attempt to change that. I decided to write about something that is intimate and personal, and write about it in as much detail as I could. It was a chance to be blunt, vulgar, and open about everything. I wrote without worrying about who might read it, or who might be offended, or anything like that. Basically, I wanted this to be as raw and real as it could be.

Along those lines, I chose not to edit it. I've left it how I originally wrote it, changing only the names of the people involved, which doesn't change the content anyway. I even left in the many spelling mistakes. Oh well. I went through a million and one format attempts before settling on the one that is easiest to produce, as well as the least impressive to look at. Hopefully the content will make up for the bland presentation of it. Also, means a masturbation story, and means a sex story. The dates, times, and locations are also noted.

Thank you. I can be reached at:

bed, after putting lube on my cock and putting it in a plastic bag. I put my cock between the two pillows, and began sliding it in and out.

Now, what I did next was grab this thing that I made. I had taken the bottom of a plastic hanger and wrapped Velcro around the ends. Made a nice toy you could feel and scratch with, but could also whip with. So I started scratching myself with it while masturbating.

I kept building it up, getting rougher as I got closer to an orgasm. Pretty soon I was whipping myself pretty hard.

I finally began to orgasm, and as I came I hit myself harder + harder, and barely seemed to feel it. It was one hell of a climax...

(M) 7-2-01, around 2 pm, ^{my} apartment

Before I began to masturbate, I placed a thick rubber band around my cock and balls to simulate the use of a cock ring, something I've been thinking about getting. After it was in place I began to work up an erection. (I was already naked)
Once I was erect (sp?) I began stroking my cock with my hand. after a little bit of this, I grabbed a T-shirt and wrapped that around my cock. I did not plan to cum into the shirt, but simply enjoyed the feel of it. This had become my favorite way of masturbating.

I sat naked in my blue chair. I was facing the doorway to the bathroom. As I continued to stroke my cock with the shirt, I began

[2]

visualizing various women in various situations. I soon narrowed it down to a single girl, Sarah. She is a sexy black girl I had talked to on the phone earlier that day. I imagined us in different situations, but was distracted by the television, so had to turn it off. Upon returning to the chair, I found myself more interested in fantasizing about Vieve. I then alternated between thinking of Vieve + Sarah, or a combination of the two.

It took longer than normal, but I eventually came, going in the toilet. It felt differently than normal, which I attribute to the rubber band. It felt like it had the potential to be really big, but wasn't really. It was good though, and afterwards I took a nap in the chair.

[69]

pulling into the same rest area, and having sex in the bathroom. I thought about how fun it would be to just be like "You want to do something crazy?" and then go fuck her in the bathroom. Anyway, I built it up and let it go, having a nice big orgasm.

(M) 8-23-01, 12:59pm, my bathroom
 Nothin too special here. Got horny and jerked off into the toilet.

(M) 8-24-01, 1:30am, my bed
 Now this one's a bit crazier. It sort of marks my growing interest in S&M stuff, and my curiosity about pain.

● I was kind of in the mood, so I threw in my Tracy Lords porn. I laid on my

68

up, so I wasn't really on her. Anyway, I started moving in and out of her again, but was doing it by just moving my hips, so the fun, yet annoying, sound was no longer present.

She seemed to like this a lot, as did I. I came & had a nice orgasm, & I'm pretty sure she did too.

(M) 8-22-01, 2:45pm, my car

I was on my way home, after just visiting Vieve. I had just had sex with her, but was in the mood again. I had my cock out, & wrapped an extra pair of boxers around it. As I jerked off I thought about this cute, young, white girl I had passed a couple miles back. I made up a quick little fantasy about us

3

After a 30 min nap, I awoke, still only wearing that rubber band, which did its job to an extent, for I was still partially erect. I took off the band, looked at the red mark it left on the top of my penis, then went back to sleep.

(S) 7-4-01, noon, Vieve's room

I spent the night of the 3rd with Vieve but nothing sexual happened. However when we awoke the next morning we were both in the mood. She told me I could have anything I wanted, & I told her to kiss me all over. She did so, and was soon sucking my cock. She hinted at what she wanted to do, and I told her she could, and that I wanted her to.

[4]

With that, I was soon tied down to her bed (my hands only), and a blanket was over my head, preventing me from seeing anything, and also hindering my breathing somewhat. She then put on a rubber glove and covered it in olive oil, since we had no actual lubrication.

I knew what she was going to do, and even wanted her to do it, but that did not stop me from being a bit scared. As much as you can trust someone, vulnerability brings about fear. But she was gentle, and soon there was a finger in my ass.

This was the 2nd time we had done this. If you've never let someone finger your ass, you really should some time. If nothing else it's an incredibly interesting feeling.

[67]

position, with me on top of her.

So we start working it, and we're getting some good back n' forth motion going, and that's when we notice the bed squeaking. Yes, this bed of hers, which we've had plenty of near-silent sex on, was suddenly laughing at us in **CLASSIC** cheesy movie style. We both kind of noticed at the same time, but tried to ignore it. This, however, was impossible, and soon we were laughing along with every creak. It was fun and goofy, but neither of us could get off.

We sort of stopped for a while, and just talked for a minute. Then I sat up, sort of, and started having sex with her again. So I was on top of her, but was propped

66

I finally came, + it was really nice. It made my ass sweat a lot, which usually happens when I masturbate. So I carefully pulled off the paper towels, trying to wipe myself clean as I did it. I then rolled down the window and threw out the paper towels. This is the only time I'll justify littering.

⑤ 8-22-01, 10:30am, Vieve's bed

Neither of us had been in the mood the night before, and really neither of us were in the mood in the morning. But I was heading home, + we knew we wouldn't see each other for a while. So we kinda wanted some action, just cuz it'd be awhile til we could get it again.

I put on a condom, and we started having sex in the missionary

5

So now she's fingering my ass and sucking my cock at the same time. It takes a bit to get into it, after a little bit I'm really liking it as is she. For a long time I felt like I was on the verge of reaching an orgasm, but I can't quite get it. I start to sort of freak out mentally, and suddenly I no longer want to continue. I ask her to stop, and she does.

I think we were both disappointed that I didn't cum, but that didn't mean we were going to quit.

She put a condom on me, + straddled me. She slipped me into her + began to fuck me. I was still tied to the bed, but thrust my pelvis to meet hers. It isn't long before I cum. Not sure if she did or not, but I don't think so.

I lie there as she gets off of me. (oh, did I mention she was on her period?) she pulls off the dirty, bloody used condom, and ~~ties~~ ^{ties} it off. I call it a work of art as she unties me and lays down with me.

⑤ -cont.-

After awhile we started kissing + kind of going at it again. She wanted me to tie her up and have my way with her. I know what some of you might be thinking: "Eww, gross, she's on her period." This is a normal response, but once you stick your dick in there you realize it feels the same, + then you get over this mental hang-up.

So I had her roll onto her stomach. I tied her arms down, + rubbed olive oil on my cock. She was flat on her stomach, and I

and one of them is masturbating while I drive. It's fun, and kind of risky. My only real fear is that some day I'll get in a huge wreck, and they'll find my dead body, cock in hand, and I'll be forever remembered as "that kid who wrecked his car and died cuz he was wackin it."

I don't think I was really thinking about anything, or fantasizing really. I was just stroking myself and enjoying it.

As I started to get closer to a climax, I looked around for something to go into. I saw some paper towels sitting on my dash, so I grabbed them and wrapped them around my dick.

I started jacking myself as hard + fast as I could, switching hands, + using both when I could.

[64]

movement like this for a little bit. She was breathing heavily and saying things like "Come on baby, give it to me", so finally I grabbed onto her with a sudden force, & started fucking her hard and fast. She buried her face in a pillow, but I could still hear her screams, and I was loving it.

She came after awhile of this, as did I. It was a pretty big orgasm for me, but even more it was a long orgasm that lasted for a long time, & was really nice.

(M) 8-18-01, 7pm, in my car, on the
interstate

I was driving to see Vieve, and was bored. It's about a 5 or 6 hour drive. There are a lot of little tricks I've learned that will help a long drive go by faster,

stop. I didn't want to orgasm without a condom on, so we stopped.

[7]

laid on top of her, entering her from behind. I began thrusting in and out of her, and then, at her request, I put my right leg on the outside of hers, so I was sort of straddling her right leg, but still inside her, something I'd done last time we were together. I started going harder & faster. I told her I was going to cum inside her, and she said it was ok, so I did. But I didn't stop fucking her. I kept going. I then took her left leg and put it inside mine, so her two legs were inside mine. It sounds awkward, but really wasn't. It was a good fuck, and I was liking it, but she wanted to stop, so I did. She said she could feel her juices & blood in her ass crack, and that it was disgusting. I pulled out & untied her. Indeed, blood covered her

After a bit & put on a condom & had her turn over & get on her hands & knees. She stuck her

8

'chat + ass, as well as my cock.
My balls were dark dark red, almost

10

ass in the air at me, + I stuck my
cock in her. I bent over her,
reaching around + under her, my
left hand on her breast, my right
hand on her clit. Then, I

straightened my back, so I was
up, but still on my knees. She
begged me to fuck her harder, so
I did. Fast + hard until we both
came.

(M) 7-6-01 7:00-7:08pm, my apartment

I was in a hurry to meet with
friends, but wanted to get off first.
I threw a porn into the VCR, +
quickly masturbated, + came into
the toilet. Total time: 8 minutes.

(M) 7-7-01 10:50am, my apartment

I was online, checking some
email. In between emails I
was surfing some porn too. Eventually

63

After I put a condom on, she
asked how I wanted it. I knew

61

my cock. She just kept moving
back + forth, and so was I,
grinding on her chest.

I felt the orgasm building up in
me for a long time. I could tell
it was going to be big, but I
held it off for as long as I could.
Finally it was too much, + I just
let it all go. The first load shot
all the way up to my left arm,
landing right on my bicep + elbow.
I just kept gyrating, shooting load
after load. When I was finally
done, I just laid there. Vieve
got up + went to the bathroom for
some toilet paper to clean up with.
Somehow she was already clean
for the most part. Almost all of
my cum had landed on me or the
sleeping bag we were laying on.
She came back + sort of
wiped me off. I still didn't feel

[60]

like I'm about to both shit and cum, but it's hard to tell if I'm gonna do either.

Eventually I realized (as did she) that I wasn't gonna get off like this. She asked what I wanted her to do. I knew what I wanted, but was kind of embarrassed to ask. But I told her I wanted to get off on her chest and breasts. Not so much that I wanted to actually cum on her breasts, but just wanted to use them to get off.

She asked how I wanted to go about it, so I told her to rub some lube on my cock, & stay in the 69 position we were in. So she did, & laid down on me. She was scooted up so her breasts were right on my dick. She started moving back & forth while I held breasts against my

[11]

I was ready to get off... Both offline & OFF off. I found a nice picture of an orgy on a beach, & left it on my screen as I stroked my cock with a T-shirt. Then I came into the toilet. It was a decent orgasm, but nothing great.

(M) T-8-01 4am, my apartment

I started off masturbating out of boredom, & was just gonna try & get off fast, but then I decided to try and last a little longer. I was watching the one porn I own (some Tracy Lords tape. pretty horribly done, but sort of cool cuz she's only 17 in it, thus making it illegal) I was laying on top of 2 pillows, & sliding my cock in between them, mimicking sex. This is what I was doing the first

time I remember having an orgasm. I was pretending to have sex with Ann Williams, a girl from my class. Not sure how old I was, but I'd guess 12 or so. Anyway, that method worked then, + it works now.

My plan was to get close to an orgasm, then get up and finish in the toilet. But I liked what I was doing, so I decided to do what I used to do when I was in Jr. High + high school. I took a few napkins + paper towels, + faked them around my dick. It sounds uncomfortable, but it isn't really.

So then I went back + laid down, putting my paper-covered shlong between the pillows. I kept watching the porn, but was half ignoring + thinking of my own fantasies.

She was sucking my cock, + doing a great job of it. But I had my face buried in her snatch, and that's what I was focusing on. I was licking and sucking, and just going to town. It was great. At one point she moved back + down, + the tip of my nose went right up in that stuff, + I loved it. It was disgusting, getting girlie cum on (and in) my nose, but in the heat of the moment it was great.

While all this was going on, she had put a condom covered finger up my ass. She was having fun with that, + still going down on me. She kept asking if I was gonna cum, since she wanted to be ready. But I couldn't really tell, and told her that as soon as she stuck her finger up there, it feels

58

to stop, so I kept going even after I'd cum. Pretty soon she came too, & I laid down on her chest as she put her arms around me.

⑤ 8-17-01, 2:30am, my bed

I put an "S" for sex, but it wasn't really sex. But it was with Vieve so not really masturbation. I'll just explain.

I don't know why, but I really wanted to go down on her. I most always enjoy it, but on this night I really had this urge to. I went down on her for a while, then we started going down on each other at the same time. After a bit she just rolled over on top of me, so her face was right in my crotch, & vice versa. That's right, folks, it was time to **G!!**

13

I tried to build it up as best I could, intentionally trying not to cum too soon. But after awhile I decided to just hit it. I sped up, & tried to keep thrusting as I started to orgasm, but couldn't. It was a really big orgasm that shook my whole body. I was actually surprised at how big it was, the biggest I've had in a while. Yeah, was a nice pillow-fuck.

④ 7-9-01, 5pm, school restroom

I was at school, & in a bad mood. Just generally depressed. I thought if I whacked-off I would at least feel good physically. Plus I like to masturbate in public restrooms, & I hadn't done it in a while.

I stepped up to a urinal & pissed. After I was done, I

[14]

Worked up an erection, & just stood there stroking it. I usually go into a stall, but this floor was fairly desolate, plus these stalls didn't lock, so I figured I might as well stay here.

I thought of a lot of things, all the while using both hands to stroke myself. I even spit on my left hand, just to add to the effect. I still had my clothes on (even wearing my back pack still.) My pants were unbuttoned & unzipped, & my cock was coming out the fly of my flannel boxers.

I thought about different girls in my class (like this cute girl Jill), as well as when Vieve & I had sex in a bathroom. Pretty soon I was about to cum. The first little wave hit me, & a little cum came out, & landed on my left index finger.

[57]

she said it was starting to hurt, & that it was rubbing her a lot. So I pulled out & put on more lube, & decided to finish off. I started to fuck her instead of just having sex with her. She got into it, but I don't think she came. But I did, & it was nice.

⑤ 8-16-01, 2:30 am, my bed

I'll be quick in explaining this one, since it was similar to the last couple times of having sex.

We were in missionary position, with me on top. We were going at it, & I put my right hand under her lower back to sort of raise her up to a different angle. It didn't seem like much, but she liked it a lot & started to really get into it. I started going faster & faster, & she begged me not

56

⑤ 8-14-01, 10pm, my bed

I honestly can't remember what all we did this night. Just being sexual, + all the sexual things you do when you're in love + horny. I think she got off on top of me. See, she always does this thing where she masturbates on top of me. She'll lay on top of me + put her stuff on top of mine, + just rubs herself on me until she gets off. This has always been a huge turn on to me, especially when she did it before we had ever had sex.

So then she said I could have her anyway I wanted her. I was in the mood for more of a slow loving. I entered into her from the side, + then behind, + then from the front, doing her one way, then rolling her over + doing her another way.

But after a while of having slow

15

But I internally pinched it off + stroked harder. Then the orgasm, the real orgasm, hit. I shot part of my load onto the back of the urinal, + part onto the urinal cake, which was gross.

I then realized I had no way of cleaning up. So I waddled over to the stall, + began wiping up with toilet paper. Suddenly the door opened, + someone came into the bathroom. I quickly tucked my cock into my pants, + pretended to blow my nose as someone passed by + went into the next stall. I then flushed the toilet, washed my hands, + left, flushing my urinal on the way out also.

④ 7-12-01, 7:39pm, my apartment

I wasn't really in the mood mentally, but physically I felt

16

like I needed to get off. I got online, checked my email, then went to my favorite porn site, www.thumbnailpost.com, & quickly looked up some porn, mostly black & latin chicks, as well as some fat chicks. I sat in the chair nude & masturbated with my boxers, which were flannel and wrapped around my cock.

I had received an email from this girl Nicki that I used to hook up with now & then. She mentioned maybe coming to see me sometime, so she was fresh on my mind, & thus the subject of my fantasy to get off. Now, I never had sex with her, but she probably gave the best head of anyone I've ever been with. She didn't have any special method, and actually had a strong dislike for the taste of cum.

55

So then we switched to this other weird position where we were both sitting up, & she was facing away from me. Other than that I can't explain it. It was interesting though.

So we grooved like that for awhile, but the groove kept getting off, & she would say something like "You have to go opposite time as me" & shit like that, which was just annoying. Being told how to have sex, I mean.. I dunno, it's annoying.

Eventually we switched over to a missionary position. I liked the other stuff, & it was a lot of fun, but it wasn't getting me off. But a little bit off straight forward bump & grind did the trick, & I had a nice orgasm.

54

so I grabbed it by the ankle.

At first my chest was against her back as I was thrusting into her, but then I sort of scooted back + put some space between us. Then I just gripped her leg + pulled her back into me. It was a bit odd, but fun, + got me off.

(5) 8-14-01, 11:30am, my bed

Vieve + I started out trying some new positions. First we did one where I was laying on my back, and then she sort of sat on me, but facing away from me. After she had put me inside her, she leaned back + laid down on me, so her back was pressed against my chest. It was cool because it was new, but I didn't like all that much. It felt like I was barely in her, + just wasn't that great.

17

But she really really loved to suck cocks, it's that simple. A lot of times ppl have oral sex in place of intercourse, for whatever reasons, even though they'd rather have sex. But with her I always felt like even if we had sex, she'd still want to go down on me. And it wasn't like she did it so I would then go down on her. I never did, + don't think she ever cared. She just loved to suck cock, + I know that anytime I hung out with her I'd get a blow job at some point, + that thought was always a huge turn on. Anyway, I looked at the pics on the net while having fantasies + memories of her go through my head until I finally came into the toilet. Pretty good orgasm.

M 7-13-01, 5:20am, my apartment

I just got done writing about the previous orgasm, & was all hard again. So I opened up some of the pics I found earlier, & again masturbated with boxers, this time while looking at "pregnant sluts". No fantasies really, just a quick jerk, cumming right into the boxers & discarding them into the dirty laundry. It was a small & odd feeling orgasm, not sure why. Oh well, whatever.

M 1:22pm, 7-13-01, my apartment

was bored. looked up porn on net. wacked off into boxers.

Took nap.

S 7-14-01, around 2:30pm, my apartment

Me & Vieve were about to go out to get some food. She was

my load into the toilet. And, although I made no special effort or anything, it was an unusually big orgasm, & I enjoyed every bit of it being hunched over the toilet, looking all goofy but feeling nice.

S 8-13-01, 10am, my bed.

Vieve got to my place the night before, but we were unable to be our normal fuck-happy selves since I had a couple buddies staying with me too. But they left in the morning, so it was then time to sex things up.

I put on a condom, & smeared lube all over it. We tried a few different positions, but ended up with both of us on our sides, me being behind her. She sort of raised her left leg, her top one,

nice. I stood up & took off the glove, & to my amusement all the cum went into the middle finger of the glove, & it looked cool. Also, not a single drop got on my pillows, which I was surprised to see.

M 8-10-01, 4am, my bathroom

I wasn't really in a sexual mood, but accidentally came (heh, came...) across a porn site that was sorta cool (www.freepicsindex.com). So that sort of got me in the mood. I look up some "large ladies", but then got to going through some anime & hentai pictures, which always entertain me because apart from ~~being~~ being sexual, they are also just cool to look at.

Anyway, I jerked off & shot

laying on my bed, fully clothed. I told her to get up because I wanted something to eat. She jokingly unbuttoned her jeans & pointed at her crotch. I said "ok", & knelted down in front of her, pulling her pants & turquoise underwear down to her ankles. Thusly, I began to eat her out (such dirty language!) She pulled me up to her, undoing my pants & saying it'd be funny if we had sex while still clothed. I crawled between her legs, & worked my way into her.

We were going at it, & the phone rang. Now, I thought it would be funny to keep going at it while talking on the phone, but I later found out that Vieve didn't think it was funny. Oops. Oh well.

After I got off the phone, I

[20]

went & found a condom, put it on, & lubed it up. I then crawled between her legs again (we both still had pants around our feet) & slid into her. We went at it for a little while, until I came. I asked if she went, & she said no. I wanted to keep going, but she said it was ~~ok~~ alright.

I pulled out & stood up. Upon standing up & taking off the condom & spilled a few ~~ok~~ drops of cum on the carpet. At first I was worried the condom broke, but I think it just spilled. It was gross.

⑤ 7-15-01 around 11:00am, my place

She [vieve] offered herself to me from behind. On her hands & knees, naked on my bed. I put on a condom & lubrication, & bent over her, sliding in easily. At first I sort of

[51]

knew that if I could, I would. I'd suck myself off, & love it.

I finally decided this wasn't working. The jacking off thing just wasn't gonna work today, which was a shame because for some reason I had this urge to ejaculate all over myself. But I wanted to fuck, so I decided to at least pretend I was fucking.

I couldn't decide what I wanted to cum into, but then saw a rubber glove lying on the floor. I always thought it'd be funny to whack off into a rubber glove, but never have. So I dripped a few drops of lube into the glove & slid it over my wang. I then laid down on my two pillows, with my gloved cock snugly between them, & began pumping in & out. Pretty soon I came, & it was

① 8-7-01, 4:00pm, my place

This was a decent time, considering it was masturbation, & what I really wanted was to fuck someone.

I took a shower, & then turned off the water. I dried my hands & cock, & then applied some lube (you have to dry off first, lube & water just don't go)

I laid down in the bathtub & stroked myself. It felt good, but I wasn't feeling like I would get off. I thought about Vieve & how hard I would fuck her if she was there with me, & knew I wouldn't stop, even if we had both cum. God I wanted to fuck her. Or someone. Or to be fucked, or at least get some head or be jerked off by someone else. I suddenly wished I could go down on myself, &

laid on top of her, my chest on her back, with my left hand around her stomach, my right under her chest, feeling her breast. After a little bit though I sat up, so I was more upright & on my knees. My hands changed positions, between her neck, hips, & back. One thing about getting a girl from behind is that it is straight up fucking. And it's a power/control thing too (Not sure if it's like that for 2 guys who butt-fuck, but I think it's true for a guy fucking a girl) Anyway, she said this one was "for me", so I didn't try to hold out, or delay my orgasm. I just went at it til I got off. Then pulled out, pulled the condom off, threw it in the toilet, & went back to lay with her for awhile.

(5) 7-16-01, 3pm, my place

Not sure why, but I wasn't in a very good mood. Physically, I was ready to have sex (in other words I partially erect). Vieve was in the mood, & turned my partial into something she could work with, then put on a condom & lubed me up. I was still in a bad mood, so basically let her do everything while I just laid there.

But after awhile of her being on top of me, working her "I will fuck you til you fuck back" magic, I was forced to start enjoying it. I started thrusting upward as she came down. We were hitting it with pretty good rhythm as I slid my hands from her back to her breasts. I did this for her sake, since I assume it's annoying to have your breasts

I know I would be late to work, but she got down on all fours and flipped her skirt up, & I couldn't say no. I unzipped my shorts & pulled my cock out through the fly of my boxers, & then the fly of my shorts. I put on a condom & some lube & got down behind her. I pushed her skirt all the way up, & slid her underwear to the side. I stuck my dick in her & immediately began to fuck her. She loved it, & so did I.

It didn't take too long before we both came, & I think she came before me, which is rare. Anyway, it was a good little quickie, & I was only 5 minutes late for work, so I blamed it on traffic. I just hope no one else could smell the sex on me.

[48]

pulling her to me as hard as I could, while my left ~~and~~ did the same on her hip. It was crazy and rough, and hard and fast.

We both came, and I was breathing hard and seeing spots. I went + threw the condom in the toilet, then came back + collapsed in bed next to her, + we both went to sleep.

⑤ 8-5-01, 3:50pm, my bed

I was supposed to be at work at 4:00, and that was when Vieve was going to head home. But she wanted one more quickie before she left, and she wanted it "like last night, ya know, towards the end". In other words, as hard and fast and deep as I could give it to her, + from behind.

[23]

flopping all over when you're trying to get your fuck on, especially for her since she has rather large breasts (don't ya baby?). She even thanked me later. But, I also did this for myself, because as goofy + unsexy as she tries to be with them sometimes, they are still sexual to me, especially at a time like that.

After a little bit I sort of pulled her down so I could get a more pleasurable angle. It wasn't long after this that I began to cum. It was a good, strong orgasm, + afterward I just laid there. Vieve eventually rolled off me, + even did the honor of removing the condom + wiping me off. What a sweetie... I was in a better mood after that though.

(M) 7-17-01, 11:20 pm, my bath tub

I just got done with one of the kinkiest + most interesting masturbation experiences I've ever had. Well, kinky for me at least.

I had kind of been in the mood all afternoon, + when I got home I eventually got online to check email. After that I looked up some porn, + was gonna get off into some paper towels, fast + simple. But, just as I started Vieve called, + I talked to her for awhile, + sort of got out of the mood.

After getting off the phone I decided to take a shower. I was tired, + soon laid down on the bottom of the tub as the water fell down + onto my "area". I soaped myself up, + was soon erect again, so I began to rub +

She rolled over, flat on her stomach, + I kept at it. For the next 15 minutes or so I kept at it. The positions and rhythms changed, though all were from behind, + all were very erotic.

Finally we were both reaching a peak, and I had her get up on her hands + knees. I started going as hard + deep as I could, and alternated between leaning over her, kneeling straight up, + even trying to lean back a bit. We were flat out fucking at this point, and mutually expressing our enjoyment through grunts and groans. My hands were all over her, + firmly so. One second they were pressing down on the top of her ass, the next they were gripping her hips to pull her to me. For a bit I had my right hand on her shoulder,

gently, + just laid there for a moment. Once she had settled, + was again breathing deeply, I reached between my legs to feel for her twat. I then started to ease my cock into her. (At this point I had the thought of accidentally slipping it into her asshole, + wondered what she would think if she woke up with my dick in her ass. When I told her this later she said my dick would not have been able to just "slip into" her virgin asshole)

I got my cock all the way in her, + she moved and made a few sounds. I slid it out, + back in, and after a few thrusts she was awake. She still hadn't said anything, but her means had shifted just enough to indicate pleasure rather than fear + confusion.

feel myself. I was just sort of feeling myself all over, including my asshole. Now, I hadn't actually put my finger in my ass, but rather I was just running my finger back + forth over it, and taking in new feelings. But after a bit of this I decided I wanted more.

I stood up, rinsed off, and turned off the shower. I grabbed the red bottle of kiwi strawberry lubrication Vieve left here, as well as an extra unused rubber glove from the last time I dyed my hair. I was still dripping wet, + went back to lay in the bathtub. Previously I had put a towel down in the tub while the shower was still running, so I could lay down more comfortably, so I went + laid back down on the soft soggy blanket.

After pulling on the rubber glove & pouring lube all over everywhere, I tried to find a comfortable position. On my back, on my side, on my stomach... Legs up, legs down... This way, that way... Basically I wanted access to both my asshole & my cock.

Through the different positions I also tried different ways of fingering myself. I always wanted to try that when I was a kid, but never had the courage to actually do it. But now that it had already been done to me, I figured I could do it myself.

I started out trying with my pinky, since it's the smallest. That didn't really work though, so then I tried my index finger. This seemed to work better. I had to ease it in, taking deep

Just the thought of it made me start to get hard, so I started to jerk off a little while she slept peacefully beside me. Once I had a strong hard-on, I put on a condom & rubbed lube all over it. She was on her side with one leg on top of the other, so I took the top leg (her right) & lifted it, moving it to the side. So now she was still sort of on her side, but her legs were ~~spread~~ ^{spread} apart, thus exposing her beautiful snatch to me.

I put some lube on my fingers & rubbed it on her. I rubbed & felt her for a little bit, & slowly began to finger her, but my middle finger was only about half way in her when she started to stir, so I quickly withdrew it. I then laid down on top of her, ever so

sleeping beside me, a girl whom I love like none other, and one whom is also very much in love with me, and I realized how silly I was being. I also realized how much I would regret •wasting a night with her by being upset over trivial things, (though it was 5am, & the night up til then had been great).

So I decided to do something I hadn't ever done, but had fantasized about from time to time for a while now: I was gonna fuck her in her sleep.

I had told her I was going to some day do this, but I'm not sure she ever took me seriously. But that was fine by me, and in fact this made it better, for she was less expecting of it.

breaths, & trying to stay calm. Once it was in there pretty good I tried all sorts of different things, finding where I liked pressure, where I didn't. Stuff like that. But the way I was laying wasn't very comfortable, so I slowly pulled my finger out (which is really odd because no matter how slow you try to pull out, it gets to a certain point, & your ass sort of squeezes it out, just like when you take a shit).

So I rearranged myself, so I was sort of on my right side, with my right leg on the side of the tub & my left leg over my head. I applied more lube, & slowly inserted my middle finger (of my right hand) into my ass. I tried 2 fingers, but that wasn't really happening, so stuck with one.

28

Once it was in about all the way, I put pressure on what I assume is my prostate. The pressure gave me a similar feeling as when I'm about to cum, but I could tell that alone wouldn't do it. So with my left hand I began to stroke my cock. All sorts of random sexual images flashed through my head. Then I sort of started to imagine that I was fingering a girl, & memories of doing that ran through my head. Then I sort of began to imagine that I was a girl, & was fingering myself. I was just rotating between all these types of thoughts, all the while building up.

Finally I started to orgasm. Now, I was sort of upside down, so my lube-covered cock was pointed right back at me. But trust me,

43

both went back to sleep for a few hours. Then we woke up, did a little of this & that, & then had sex again. I'll spare the details, for they are nothing all that exciting, but overall it was a very nice way to start the day: wake up, have sex, go to sleep, wake up, have more sex...

⑤ 8-5-01, 5am, my bed

Vieve & I had been sexual, playful, & loving all night, but I won't talk about these events because at no point did I orgasm, and this is a journal of orgasms.

Anyway around 4 or 4:30 am, she fell asleep. But a series of progressively depressive thoughts made sure I stayed awake & upset. But after awhile I just looked over at the beautiful girl

offering, not that she was offering her ass, just herself. I put my cock in her & started working it in & out. It was feelin fine to me, but was hurting her for some reason. So I stopped, & she rolled over.

I laid on top of her, & we proceeded to have sex, at that speed & pace that is too fast to be called "making love" but more sensual than flat out fucking.

After a little bit I came. I kept going for a bit, til she asked if I "went". I nodded, & she put her arms around my neck & told me she loved me. Then I got up & took off the cum-filled condom, & flushed it away.

⑤ 8-4-01, 2:30pm, my apartment

After the first round of sex we

I did not care. So I started to cum, going all over my chest & stomach. The orgasm wasn't as powerful as some I've had, but it was really good, & probably lasted longer (& shot more) than any I've had, at least in a while.

When I was finally done, I slowly removed my finger from my ass. Then I just laid there, covered in my own cum, catching my breath. Finally I stood up, removed the glove (which, to my surprise, didn't have a trace of shit on it) & turned on the shower. I cleaned off & wondered when I became such a kinky bastard. Then I realized it didn't really matter, it was fun.

(M) 7-20-01, 1pm, my place

It had been a few days since I'd gotten busy with myself, so I decided to hit it a little bit. I sat in my blue chair in front of my computer + looked up some pics I had surfed across a few days before. A few of some pregnant ladies, a few of this really overweight girl, + some other assorted hardcore stuff. I took off my boxers + wrapped them around my cock; they were in their 3rd day of service, + I was about to take a shower anyway, so I figured I would just have my way with them.

I ran through a couple fantasies, but pretty much just jacked off, quick + fast. I came fairly quickly, then sat there for a little bit. I then put the soiled boxers oh-so-carefully into the dirty laundry pile.

(S) 8-4-01, 9:30am, my apartment

Finally, after so much time, I was granted the privilege of being with my baby. She had come into town the night before + we spent the night in each other's arms. However, upon awakening the following morning, we both wanted some.

She was just coming off her period, so first thing she did was go to the bathroom to check for blood, as well as to pee. She came back to report there was hardly any new blood. It was then my turn to urinate, a somewhat difficult procedure with the standard morning wood, but I returned (with lube + condoms in hand) ready to get busy.

She got on her hands + knees, pointing her ass at me as an

40 watching the porn. Now, I really don't like to watch porn when I get off. Most of the time I'd rather look at pictures, or, even better, just lay in the dark & imagine it all. In those cases you can think what you want about a girl. But in a video, especially a traditionally, stereotypically styled porn, a slut's sluttiness is even more obvious. Sluts don't turn me on really, especially skinny white sluts with fake tans, fake breasts, & stupid tattoos that are meant to be cute or sexy. But every now & then its fun to imagine I would actually fuck someone like that, someone I hated, just for the sake of a quick fuck. So I thought that, & got off, & went to bed.

31 It was a pretty strong orgasm, & felt nice. Maybe it's just the male that I am, but a good orgasm makes me want to do one of 2 things: have another orgasm, or go to sleep. This one warranted a nap. So I postponed my plan to shower & laid my naked ass down on my bed. The one thing nicer than an afternoon nap is a post-orgasm afternoon nap.

(M) 7-22-01, 3:45am, my bathroom

I took a shower, cleaned up, then ~~wasn't~~ ~~wasn't~~ ~~wasn't~~ GOT DIRTY! (heh, how lame) Anyway, I turned off the shower & lubed myself up. I sat & kneeled in the bathtub. I used both hands, & just rubbed them up & down my penis. I was trying it at all different speeds & faces,

none of them were really getting me off. I then started to rub my balls & thighs as well, something that usually doesn't do much for me, but was really feeling nice right now.

Memories of masturbating with motion lotion when I was in Jr. high came back to me. A girlfriend at the time had gotten me said lotion for some anniversary of ours.

Suddenly a thought of another gf popped into my mind, & I imagined us doing much more than we ever did.

Eventually I was ready to cum. It took much longer than I had anticipated. But I finally came, & my cum just went onto the bottom of the tub, creating a little cum-puddle. Some got on my hand, & I shook it off, not unlike

After shooting my load in the sheep's ass, I wasn't sure what to do. So I stood up, holding the sheep, with my cock still inside. I waddled over to the bath tub & pulled off the sheep. After cleaning myself off, I started to clean the cum out of Shirley. But I soon realized it wasn't worth the effort, so I carefully deflated her, & threw it away. Eh, it was fun while it lasted.

8-2-01, 3:39am, my bed.

Nothin too special about this time. Threw on some porn, & started working it. I took an old pair of shorts I was gonna throw out, & ripped off a piece, which I then wrapped around my cock.

I lay down on the bed, & got my groove on while

[32]

All I can say is enough lube will make anything fuckable. So, "Slump!", in slid my cock, & what do ya know, it was kinda nice. So I tried a couple things, but ended up just laying her down on the pillows & "giving her a bit o' the in & out".

So now you're thinking "It's one thing to bust a nut inside a fake sheep, but was he trying to pretend it was a real sheep?" Well, although I had been reading up on bestiality earlier that week, & have always had an open mind about it, it isn't really a turn-on for me. I tried imaging it was a sheep, & then tried to imagine it was various girls, including Vieve. But in the end I could only think of it for what it was, so I just shagged it good & hard.

[33]

Bill Murray from Ghostbusters after getting slimed.

Anyway, it was a lot of work for an average orgasm. Oh well.

(M) 7-22-01 3:28pm - 3:32pm, my bathroom

I had to be at work at 4:00, & decided I wanted to get off first. So half of the urge was to get off, & the other half was to see how fast I could do it. I used to do that when I was in high school. Like, I'd watch TV, & while watching I'd work up a good hard-on, & then when a commercial came on, I'd go to the bathroom & try to get off, & get back before the commercial break was over. Fun way to kill time.

So I took a couple pillows & threw them down on the floor in the bathroom. I took off my clothes,

sat down, & grabbed a couple porn mags my neighbor gave me when he moved out.

I looked at the young (& actually unattractive) girls, & soon had an erection. I wrapped a soft T-shirt around myself, & stroked it smoothly. The skinny white girls on the printed pages in front of me did a good job at getting me started, but to finish the job I thought back to the older black lady I'd seen on the train that morning. She wasn't really "older"; probably 30 or so. And she wasn't overweight, but she was big. But the thing that really drew my attention to her were her large breasts, partially open blouse, & her obviously intentional cleavage. Her sex appeal was much higher than these skinny bitches, so

Now, it seems I've been getting kinkier & kinkier the past few months. This is due to many things, and admittedly this journal is one of them. I know in the back of my mind that I will write about every orgasm, so part of me wants to have something worth writing about. Plus goofy stuff just seems fun.

So I look at Shirley, & think "Now... I can't do that" I remember Vieve asking if I'd ever fucked this nice little sheep, which is intended to be a novelty, or joke, yet does have a nicely placed hole. Well, I hadn't, & told her I didn't even think my dick would go in there. I was suddenly curious. Would my dick fit? What would it feel like? Is it ok to fuck a blow up sheep?

[36]

I started off my session in the same manner as usual, which is looking up porn on the internet + stroking myself. After finding some nice pics of some fat chicks, some latina chicks, + some asian chicks, I was ready to move over to my bed. (BTW, I don't mean to sound disrespectful by saying "chicks" so much, that's just how they are referred to on the sites)

So I was laying on my bed on top of my 2 favorite pillows, + I was sliding my dick in + out pretending I was fucking that fat chick by the pool, when I kind of glanced over at the corner of my room. And who do I see? Shirley, my inflatable Sheep.

Now, ~~Let~~ Let me explain something.

[35]

She became the temporary object of my temporary fantasy. (And I didn't mean to sound offensive before. I have nothing against skinny white girls, it's just that I see too much of them + they bore me.)

Anyway, it didn't take long to get off (4 min, total) + I was on my way to work. The orgasm was about as good as the one I had the night before, which took about 20 min to achieve (or is it achieve?).

M) 7-31-01, 10:13pm, my bed

Been awhile since I've masturbated. About 10 days, which is a lot for me. Mostly this was due to some emotional problems I was dealing with, and basically I just wasn't in the mood. But, of course, I eventually got back into the mood.
